Skills

HTML - CSS - SCSS - Typescript - Javascript - Next JS - React - Vue - Tailwind - Framer - Git Version Control System - Cypress - CSS in JS (Vanilla Extract) - Technical SEO - REST API - CMS Headless integration - Tanstack - Zustand - i18n - GraphQL - UI/UX Design - Wordpress - Elementor - NoCode - Figma - Adobe XD - Adobe Photoshop - Adobe After Effects

Experience

Elmec Informatica | June 2025 - Now (Front-end Software Engineer)

Vue.js, Tailwind CSS, Pinia

- Development of a Vue.js web application serving as the company's primary customer touchpoint, with multilingual support and state management using Pinia
- Creation from scratch of a custom UI library based on Element Plus, ensuring consistency, scalability, and faster development workflows
- Daily collaboration with the design team, contributing to the definition of UI components and interface interactions
- Translation of design specifications into pixel-perfect interfaces, with strong attention to detail and full compliance with UX/UI guidelines
- Implementation of frontend testing with Playwright to ensure application reliability.

TXT e-tech | December 2024 - June 2025 (Front-end Web Developer)

React, StyleX, Tanstack Router - Query - Table, GraphQL

- Development of a complex React web application featuring advanced layouts, interactive data grids, and highly reusable components
- Global state management using Zustand and implementation of multilingual support with i18next, ensuring a smooth user experience
- Integration of REST APIs and optimization of data fetching and caching with TanStack Query, improving frontend responsiveness and reliability

Casavo - Ulisse Web | June 2024 - December 2024 (Front-end Web Developer)

Next JS, Typescript - CSS in JS, REST API, Technical SEO, Git & GitHub,

- Development and maintenance of web interfaces using Next.js, React, HTML, CSS/SCSS, TypeScript, and JavaScript, ensuring pixel-perfect quality based on Figma designs
- Integration of external services via REST APIs and management of headless systems such as WordPress and Strapi
- Team collaboration using Git/GitHub (pull requests, merges, rebases) with efficient version control management
- Technical optimization (SEO, performance) and attention to detail using tools such as Figma, Photoshop, and Adobe XD

JEMIB | 2021-2023 (Web & Graphic Design)

WordPress, Elementor, Figma, Canva, Adobe Photoshop, UI/UX

- Creation of detailed low- and high-fidelity wireframes using Figma and Adobe XD, ensuring an intuitive and engaging user experience
- Development of visually appealing and user-friendly web pages using CMS platforms such as WordPress and page builders like Elementor
- Creation of engaging visual and motion content using tools such as Adobe After Effects, Illustrator, and Photoshop, providing guidance and support to the team throughout the entire project lifecycle

Projects [check my portfolio](#)

I recently fully redesigned my portfolio (matteoromano.dev). It currently includes some new projects alongside previous work, while additional personal projects are being progressively added, including a mobile app built with React Native and a web app built with React, reflecting my growth as a developer and designer.

Education

- **Master's Degree** in Marketing and Global Markets – University of Milano-Bicocca | 2021–2023
- **Bachelor's Degree** in Business Economics and Administration – University of Milano-Bicocca | 2018–2021
